

This home owner has a 25 foot dock that's 8 feet wide with a swim platform 20 feet out.

To handle this area you can use 2 - 40 foot blankets and 1- 20 foot blanket over lapping. Install early in the spring and remove by July 1st and you should have a clear area all summer.

Other Options: Purchase a single LBB40 and the 1- LBB20 but after the first 4 weeks move the LBB40 to the other side. This reduces your cost by 40%.

This install cost is about \$725.00 with shipping and the cost of rebar. Its giving you a 28' x 40 area to swim in. (1120 square feet). In contrast, to do the same with a competitors system, it might be tough since they have very little in the way of size options.. Using 2 and overlapping you can do the swim area between the two docks? Covering an area of only 480 Sq. Ft. at a cost of \$808.00 all in
